

MOTIVATIONAL INTERVIEWING: UNLOCKING INTRINSIC MOTIVATION

THURSDAY & FRIDAY, OCTOBER 19TH & 20TH ----
FROM 9:00 A.M. — 4:30 P.M.
RED LION RIVER INN, 700 NORTH DIVISION STREET

6.5/13 CEUs

“A person comes through our doors in varying degrees of pain – physical, mental, emotional, spiritual. They present ambivalent, apprehensive, or even defensive. Each has a strong desire to be well, even though their symptoms may say something else in their behaviors. We now view such “resistance” as a signal for the counselor to modify strategies.

Motivational Interviewing (MI) is a client-centered, evidence-based method for enhancing intrinsic motivation to change. MI is not something that one does to people. Rather, it is a fundamental way of being with and for people – a facilitative, partnership approach of communication that evokes natural change.

MI is the ongoing development of a style that has a lasting effect on the therapeutic relationship. This two day workshop will include didactic, client demonstrations, and experiential components to help clinicians understand the “spirit” and practice of MI.”
